"Our company motto is that words. For REV the industry to ensure that mobility industry with the new Pacifica Hybrid van

Ivan. "These are not mobility vans in the industry dedicated to serving the our conversion of the the industry today."

REV Group's mobility conversion of the Chrysler Pacifica, which includes new flooring, deployable ramp, fabricating and relocating of a new gas tank, and other structural changes to ensure safety and stability.

Badged the Revability Advantage Pacifica, the vehicle features front and middle-row captain's seats with wheelchair accessibility from the rear of the vehicle via a manual low-effort counter balanced ramp. There is an optional trifold ramp available that maximizes luggage compartment storage space when the wheelchair is not being used. When folded in this configuration, it provides secure storage beneath the ramp, while maintaining wheelchair accessibility.

The Revability Advantage Pacifica is rated at 84 MPG as a result of a reduction of the 16.5-gallon fuel tank to a 14-gallon capacity during the conversion process, and there is a slight decrease in potential range. It retains all OEM functionality, with the ability to accommodate a wheelchair.

"Our customers expect the latest in vehicle technology, both from an accessibility standpoint, and a technological standpoint. We're here to offer vehicles that provide maximum accessibility and freedom, and are also environmentally friendly," said Chuck Fortinberry, vice president of Revability. "This vehicle continues REV Group's tradition of providing the highest quality hand-crafted specialty vehicles to its customers based on the latest technology available."

## About REV Group

*REV (REVG) is a leading designer, manufacturer and distributor of specialty vehicles and related aftermarket parts and services. REV serves a diversified customer base primarily in the United States through three segments: Fire & Emergency, Commercial and Recreation. REV provides customized vehicle solutions for applications including: essential needs (ambulances, fire apparatus, school buses, mobility vans and municipal transit buses), industrial and commercial (terminal trucks, cut-away buses and street sweepers) and consumer leisure (recreational vehicles ("RVs") and luxury buses). REV's brand portfolio consists of 30 well-established principal vehicle brands including many of the most recognizable names within our served markets. Several of REV's brands pioneered their specialty vehicle product categories and date back more than 50 years. Investors-REVG*
