Petroperú is working to modernize its facilities and produce cleaner fuels. The Talara Refinery Modernization Project (PRMT) is currently considered the most important megaproject in the country and includes the expansion and modernization of the industrial facilities of Petroperú's Talara Refinery. Cleaner fuels will provide an improvement in the air quality and a healthier environment for all Peruvians.

“E-ONE is extremely honored to supply these state of the art industrial fire apparatus as part of Petroperú’s efforts to modernize their facilities and products, becoming a more eco-friendly Peru,” says Joel Allen, Director of International Sales for E-ONE. “E-ONE has over 25 years of history working together with the same distributor in the Peru fire apparatus market. We are privileged to have our distributor, AASACI, continue providing Peru with our world-class fire apparatus and their unsurpassed after sale service.”
