

# REV GROUP'S KME FIRE BRAND INTRODUCES THE TUFF TRUCK AERIALCAT™

Jun. 25th, 2018

*The newest fire apparatus from KME is engineered for maneuverability in the tightest and most challenging urban environments*

MILWAUKEE--(BUSINESS WIRE)-- REV Group, Inc. (REVG), a manufacturer of industry-leading specialty vehicle brands and a leading provider of fleet solutions, today announced the introduction of the new one-duty aerial fire apparatus, the Tuff Truck AerialCat™. The Tuff Truck AerialCat™ was specifically designed to meet the challenges of urban fire departments, including navigating tight spaces and maneuvering over obstacles.

The 103' Tuff Truck AerialCat™ is designed for maneuverability in the tightest and most challenging urban environments. It features a compact design, a 12' wheelbase, a 7' turning radius, and a 7' front overhang. The Tuff Truck AerialCat™ is equipped with a Front Blitz™ and -7 to 10' telescopic boom, a 100' ladder, and a Service™ cab with a 10' turning radius.

The new Tuff Truck AerialCat™ is designed for maneuverability in the tightest and most challenging urban environments.

- **Increased Compact Design:** The Tuff Truck AerialCat™ has a compact design with a 12' wheelbase, a 7' turning radius, and a 7' front overhang.
- **Better Weight Capacity:** The Tuff Truck AerialCat™ is capable of housing a 100' ladder, a 10' telescopic boom, and a 10' turning radius.
- **No Restrictions:** The Tuff Truck AerialCat™ operates at any low speed.
- **Shorter Length:** With the shortest overall length in the industry at 38' 4", the Tuff Truck AerialCat™ allows for tighter fits and supreme maneuverability.

"The Tuff Truck AerialCat™ has the advantage of a shorter overall length, shorter wheelbase and narrower body and cab in the 100' ladder range," said Pete Hoherchak, Aerial Product Manager for KME. "With the new Tuff Truck, KME can now offer any of our cab, drive train, pump and body options without the need for restrictions due to weight concerns."
