

REV GROUP FIRE DIVISION E-ONE INTRODUCES STAINLESS STEEL WETSIDE TANKER

Apr. 11th, 2017

OCALA, Fla.--(BUSINESS WIRE)-- REV Group (NYSE: REVG), a \$2+ billion manufacturer of industry-leading motor vehicle brands, announces a new emergency vehicle product, offering the E-ONE Stainless Steel Wetside Tanker.

E-ONE, a member of the REV Group, manufactures the stainless steel body at the Hamburg, New York, facility.

The new Stainless Steel Wetside Tanker includes:

- Pump ratings to 1,500 gallons per minute with a stainless steel pump module
- Extra-large stainless steel compartments
- A grooved tank top providing drainage and ventilation for hose, increased hose capacity, and reduced maintenance
- E-ONE exclusive Innovative Controls (IC) and gauges and color coded intake and discharge bezels
- E-ONE patented Fiberglass Reinforced Panels (FRP) provide an exceptional color finish and can be easily replaced if damaged

Each E-ONE Stainless Steel Wetside Tanker is designed for tanks ranging from 2,000 to 4,000 gallons and comes with a 10-year stainless steel plumbing warranty, 12-year non prorated paint warranty, and a 20-year structural warranty.

"The tanker includes standard features typically found only on premium pumpers," says E-ONE Product Manager Grady North. He explains that innovative design allows for enhanced feature offerings while maintaining value due to exceptional durability. "The break formed body attaches directly to the body mainframe to form a unitized one-piece assembly. This provides superior strength and exceptional corrosion resistance while our mounting design minimizes stress from road travel and vibration on the body module."

E-ONE made its first delivery of the new Stainless Steel Wetside Tanker in February 2017 to Wells Fire Department in Wells, Maine. "The availability of a stainless steel body was important to Chief Wayne Vetre," says Chris Champagne, General Manager of Greenwood Emergency Vehicles North, an E-ONE authorized dealership for the region. "The Wells Fire Department is a repeat E-ONE customer who was in immediate need of a tanker and the Stainless Steel Wetside fit the need."

For more information on the Stainless Steel Wetside Tanker, contact your local E-ONE dealer or Bill Savage at bsavage@e-one.com or visit www.e-one.com

About Rev Group

REV (NYSE: REVG) is a leading designer, manufacturer and distributor of specialty vehicles and related aftermarket parts and services. We serve a diversified customer base primarily in the United States through three segments: Fire & Emergency, Commercial and Recreation. We provide customized vehicle solutions for applications including: essential needs (ambulances, fire apparatus, school buses, mobility vans and municipal transit buses), industrial and commercial (terminal trucks, cut-away buses and street sweepers) and consumer leisure (recreational vehicles ("RVs") and luxury buses). Our brand portfolio consists of 27 well-established principal vehicle brands including many 

of the most recognizable names within our served markets. Several of our brands pioneered their specialty vehicle product categories and date back more than 50 years. Investors-REVG
