

# REV GROUP FIRE DIVISION E-ONE INTRODUCES STAINLESS STEEL WETSIDE TANKER

Apr. 11th, 2017

OCALA, Fla.--(BUSINESS WIRE)-- REV Group (NYSE: REVG), a \$2+ billion manufacturer of industry-leading motor vehicle brands, announces a new emergency vehicle product, offering the E-ONE Stainless Steel Wetside Tanker.

E-ONE, a member of the REV Group, manufactures the stainless steel body at the Hamburg, New York, facility.

The new Stainless Steel

- Pump ratings to 1,500 GPM
- Extra-large stainless steel tank
- A grooved tank top for easy maintenance
- E-ONE exclusive InLine pump
- E-ONE patented Fiberglass tank liner that is replaced if damaged

Each E-ONE Stainless Steel Wetside Tanker is built with a 10-year stainless steel tank and structural warranty.

"The tanker includes several innovations," says Grady North. He explains that the stainless steel tank is exceptionally durable. "The tank is built with a single, continuous assembly. This provides a more rigid tank and minimizes stress from road travel and vibration on the body module."

E-ONE made its first delivery of the new Stainless Steel Wetside Tanker in February 2017 to Wells Fire Department in Wells, Maine. "The availability of a stainless steel body was important to Chief Wayne Vetre," says Chris Champagne, General Manager of Greenwood Emergency Vehicles North, an E-ONE authorized dealership for the region. "The Wells Fire Department is a repeat E-ONE customer who was in immediate need of a tanker and the Stainless Steel Wetside fit the need."
