

REV GROUP UNVEILS THE FIRST AMBULANCE WITH BUILT-IN BALLISTIC PROTECTION

Jun. 26th, 2018

The REV Guardian focuses on first-responder safety with three levels of ballistic protection

MILWAUKEE--(BUSINESS WIRE)--REV Group, Inc. (NYSE: REV) is pleased to introduce the REV Guardian, an ambulance wrapped in Level IIIA ballistic protection for first responders.

3. A full envelope of Level IIIA ballistic Kevlar throughout the ambulance

Bob Collins, President of the REV Ambulance Group, commented, "While it is unfortunate that this sort of ballistic protection is needed, the market has requested the development of an ambulance that does not look like an armored military vehicle and functions like a normal ambulance, while providing increased safety to crews if they are involved in potential active shooter situations."

In addition to meeting the ballistic protection the REV Guardian can operate as a standard unit within a fleet of ambulances.

REV Group, Inc. (NYSE: REV), a manufacturer of specialty vehicles, is pleased to provide built-in ballistic protection for first responders.

The REV Guardian was designed in response to increasing threats to first responders. The vehicle's body is functioning as a shield in Level IIIA ballistic protection. This provides protection for first responders' entire torso in a manner that is similar to ballistic vests and provides protection to the chest and head.

The REV Guardian package contains three pillars of protection:

1. Run flat tire inserts that ensure the crew can escape even if the tires are compromised

2. Ballistic glass that protects what is typically the most vulnerable points on

REV Guardian represents the latest in a long line of industry-leading innovations intended to keep our nation's first responders safe while answering their call of duty.

About REV Group

REV ([REVG](#)) is a leading designer, manufacturer and distributor of specialty vehicles and related aftermarket parts and services. REV serves a diversified customer base primarily in the United States through three segments: Fire & Emergency, Commercial and Recreation. REV provides customized vehicle solutions for applications including: essential needs (ambulances, fire apparatus, school buses, mobility vans and municipal transit buses), industrial and commercial (terminal trucks, cut-away buses and street sweepers) and consumer leisure (recreational vehicles ("RVs") and luxury buses). REV's brand portfolio consists of 30 well-established principal vehicle brands including many of the most recognizable names within our served markets. Several of REV's brands pioneered their specialty vehicle product categories and date back more than 50 years. Investors-REVG
