Mesa Fire and Medical Department purchases an E-ONE Vector, North America's First Fully Electric Fire Truck. The customizable Vector has the industry's longest electric pumping duration which allows four hose lines to be in use for four hours on a single charge. Additional features include a superior battery storage solution offering a safer, lower center of gravity and regenerative braking. (Photo: Business Wire)

providing the highest quality and best performing fire apparatus," said Mike Virnig, Vice President of Sales, REV Fire Group. "We are excited to partner with Mesa in protecting both their community and the environment and look forward to delivering the first of these revolutionary EV fire trucks. The Vector is well equipped to serve the needs of Mesa firefighters and customizable for department needs across the country."

This rig supports the City of Mesa's Climate Action Plan and goal of achieving carbon neutrality by 2050. "I'm an advocate for electric vehicles — it's a better technology and this is one of many steps we can take to bring us closer to our Climate Action Plan goals," said Mayor John Giles. "We look forward to this as a study in the potential cost-savings and efficiency of electric vehicles in City operations."
