REV Group, Inc. President and CEO, Tim Sullivan said, "We are pleased to report another quarter of strong earnings and year-over-year growth. Our strong fourth quarter completed the first successful year for REV Group as a public company. The combination of successful commercial and product strategies, higher sales volumes and our team's focus on operational improvement initiatives drove improved profit margins across all our businesses on a year over year basis. I am proud to report 18 percent sales growth and 32 percent growth in Adjusted EBITDA in 2017, but even more importantly, I am pleased to report that all three of our segments continue to have strong outlooks. We plan to continue this trajectory of earnings growth in excess of sales growth into next year. In summary, it was a strong quarter and year, we are well positioned for continued growth in fiscal 2018 and we will continue to make progress towards our enterprise-wide EBITDA margin goal of 10 percent."
