

# REV GROUP BUS BUSINESS, ELDORADO NATIONAL, FIRST TO COMPLETE RIGOROUS 12 YEAR / 500,000 MILE LIFE CYCLE ALTOONA TESTING OF A HYDROGEN FUEL CELL TRANSIT BUS

May. 7th, 2018

RIVERSIDE, Calif.--(BUSINESS WIRE)--Rev Group, a leading specialty vehicle brands, has announced that it has successfully completed the rigorous 12-year / 500,000-mile life cycle testing of its Axess FC low-floor transit bus. The Federal Transit Administration's (FTA) Axess FC low-floor transit bus is the first of its kind to be tested to this level. The bus is made of 304 grade stainless-steel and is production-ready. It can be refueled in 20 minutes and a proven 12-year / 500,000-mile life cycle bus that can seamlessly transition from a school bus to a transit bus.

The Axess FC bus uses a hydrogen fuel cell and is the first of its kind to be tested to this level. The bus is made of 304 grade stainless-steel and is production-ready. It can be refueled in 20 minutes and a proven 12-year / 500,000-mile life cycle bus that can seamlessly transition from a school bus to a transit bus.

## About Rev Group

REV (NYSE: REVG) is a leading designer, manufacturer and distributor of specialty vehicles and related aftermarket parts and services. We serve a diversified customer base primarily in the United States through three segments: Fire & Emergency, Commercial and Recreation. We provide customized vehicle solutions for applications including: essential needs (ambulances, fire apparatus, school buses, mobility vans and municipal transit buses), industrial and commercial (terminal trucks, cut-away buses and street sweepers) and consumer leisure (recreational vehicles ("RVs") and luxury buses). Our brand portfolio consists of 30 well-established principal vehicle brands including many of the most recognizable names within our served markets. Several of our brands pioneered their specialty vehicle product categories and date back more than 50 years. Investors-REVG
