

REV GROUP FIRE DIVISION - KME - INTRODUCES PRO™ SERIES RESCUE PUMPER FEATURING ERGONOMICALLY ENGINEERED CONTROL PANEL

Aug. 31st, 2017

MILWAUKEE--(BUSINESS WIRE)--The REV Group Fire Division - KME - is pleased to introduce the PRO™ Series Rescue Pumper. The PRO™ Series is a new generation of rescue pumper featuring an ergonomically engineered control panel, a 200" wheelbase, and 534 cubic feet of compartment space.

The KME PRO™ Series is a manual control pumper with provision for foam and water. The pumper is equipped with roof compartment, rear access door, as backboard and pike pole storage.

The benefits of the new PRO™ Series include:

- Ergonomically engineered control panel – reduces complexity, increases visibility and significantly increases operator safety.
- Relocated pump operator position to the rear of the cab.
- Redesigned service access door.
- 200" Wheelbase – provides maneuverable turning radius to operate in tight conditions.
- 534 cubic feet of compartment space – capable of carrying the equivalent of a large rescue body full of tools and equipment.

Agree

"We saw the need for a rescue pumper that offered all the amenities and features for which the PRO™ Series is known, with the added benefits of a control panel design that would improve operator use, safety and serviceability," said Ryan Slane, Pumper/Tanker Product Manager, KME. "By offering the PRO™ Series with the new manual control configuration, we are able to provide a solution that simplifies operation and provides lower cost of ownership."
