**ENC®**, a subsidiary of REV Group, has manufactured low floor and standard floor buses for over 45 years to public transit/paratransit, airport, and university transportation markets. ENC is best known in the industry for its customizable options including thousands of floorplan configurations, as well as ensuring unparalleled manufacturing and safety standards. All ENC models pass a comprehensive battery of durability and crash tests. ENC manufactures the greenest buses in the industry including the zero emissions, hydrogen-powered Axess-Fuel Cell as well as the 100% battery electric Axess. All buses are crafted in the state-of-the-art 227,000 square-foot, ISO 9001 certified production facility in Riverside, California.

## About REV Group, Inc.

**REV Group®** companies are leading designers and manufacturers of specialty vehicles and related aftermarket parts and services, which serve a diversified customer base, primarily in the United States, through three segments: Fire & Emergency, Commercial, and Recreation. They provide customized vehicle solutions for applications, including essential needs for public services (ambulances, fire apparatus, school buses, and transit buses), commercial infrastructure (terminal trucks and industrial sweepers), and consumer leisure (recreational vehicles). REV Group's diverse portfolio is made up of well-established principal vehicle brands, including many of the most recognizable names within their industry. Several of REV Group's brands pioneered their specialty vehicle product categories and date back more than 50 years. REV Group trades on the NYSE under the symbol REVG. Investors-REVG
