Milwaukee, Wis.--(BUSINESS WIRE) -- REV Group, Inc. (NYSE: REVG), a manufacturer of industry-leading specialty vehicles, today reported results for the three months ended April 30, 2021 (“second quarter 2021”). Consolidated net sales in the second quarter 2021 were \$643.6 million, representing an increase of 17.7% compared to \$547.0 million for the three months ended April 30, 2020 (“second quarter 2020”). The increase in consolidated net sales was primarily due to an increase in net sales in the Fire and Emergency (“F&E”) and Recreation segments partially offset by a decrease in net sales in the Commercial segment.

The company’s second quarter 2021 net income was \$20.6 million, or \$0.31 per diluted share. Adjusted Net Income for the second quarter 2021 was \$25.7 million, or \$0.39 per diluted share, compared to an Adjusted Net Loss of \$5.8 million, or \$0.09 per diluted share, in the second quarter 2020. Adjusted EBITDA in the second quarter 2021 was \$45.5 million, compared to \$7.6 million in the second quarter 2020. The increase in Adjusted EBITDA during the quarter was driven by increased contribution from all segments.

“We are pleased with our second quarter performance that exceeded expectations and resulted in record first half earnings”, REV Group Inc. President and CEO Rod Rushing said. “While we will likely continue to experience and need to actively manage through supply chain and labor constraints in the second half of the year, the progress and momentum we are making through our operational initiatives combined with a record \$2.3 billion backlog has positioned us to raise our guidance for the full fiscal year 2021. In addition, our Board’s reinstatement of the quarterly cash dividend reflects their confidence in our improved financial position and performance.”

**REV Group Second Quarter Segment Highlights**

**Fire & Emergency Segment**

F&E segment net sales were \$307.6 million in the second quarter 2021, an increase of \$18.3 million, or 6.3%, from \$289.3 million in the second quarter 2020. The increase in net sales compared to the prior year quarter was primarily due to increased shipments of fire apparatus and price realizations within the fire division partially offset by lower shipments of ambulances compared to the prior year quarter. F&E segment backlog at the end of the second quarter 2021 was \$1,099.0 million, a decrease of \$12.7 million compared to \$1,111.7 million at the end of the second quarter 2020. The decrease was primarily the result of increased throughput within the fire

division and lower trailing twelve-month orders of legacy fire apparatus related to COVID-19 partially offset by increased orders of ambulance units.

F&E segment Adjusted EBITDA was \$21.7 million in the second quarter 2021, an increase of \$11.5 million, or 113%, from \$10.2 million in the second quarter 2020. Profitability within the segment benefited primarily from higher sales volume, price realization and productivity improvements including direct labor efficiencies and lower selling, general and administrative (“SG&A”) costs, partially offset by lingering disruptions related to COVID-19.

### **Commercial Segment**

Commercial segment net sales were \$98.4 million in the second quarter 2021, a decrease of \$44.8 million, or 31.3%, from \$143.2 million in the second quarter 2020. The decrease in net sales compared to the prior year quarter was primarily due to the divestiture of two shuttle bus businesses in May 2020, lower shipments of school buses and municipal transit buses due to COVID-19 related disruptions, partially offset by an increase in sales of terminal trucks and street sweepers. Commercial segment backlog at the end of the second quarter 2021 was \$303.1 million, a decline of \$110.1 million compared to \$413.2 million at the end of the second quarter 2020. The decline was primarily the result of the sale of two shuttle bus businesses and a decline in orders for school buses and municipal transit buses, partially offset by increased orders for terminal trucks and street sweepers.

Commercial segment Adjusted EBITDA was \$8.3 million in the second quarter 2021, an increase of \$0.3 million, or 3.8%, from \$8.0 million in the second quarter 2020. Profitability in the quarter was primarily the result of increased shipments and productivity improvement within the terminal truck and street sweeper business and lower operating expense across all segment businesses, partially offset by volume and production disruptions related COVID-19 within the bus group.

### **Recreation Segment**

Recreation segment net sales were \$237.9 million in the second quarter 2021, an increase of \$123.9 million, or 108.7%, from \$114.0 million in the second quarter 2020. The increase in net sales compared to the prior year quarter was primarily due to increased shipments in all product categories as well as lower discounting and sales allowances versus the prior year quarter which was impacted by COVID-19 related disruptions, including the suspension of normal production activities. Backlog at the end of the second quarter 2021 was \$940.5 million, an increase of \$817.6 million compared to \$122.9 million at the end of the second quarter 2020. The increase was primarily the result of strong order intake across all product categories.

Recreation segment Adjusted EBITDA was \$25.1 million in the second quarter 2021, an increase of \$26.2 million from an Adjusted EBITDA loss of \$1.1 million in the second quarter 2020. Profitability within the segment benefited primarily from increased sales volume, stronger price realizations related to lower discounting, lower operating expenses and productivity improvements that resulted in improved performance across all businesses despite lingering production and supply chain disruptions related to COVID-19.

### **Working Capital, Liquidity, and Capital Allocation**

Within the quarter, the company announced the successful refinancing of its capital structure with the completion of a new \$550 million, 5-year asset-based loan (“ABL”) revolving credit facility. Cash and cash equivalents totaled \$7.7 million as of April 30, 2021. Net debt<sup>2</sup> was \$298.3 million, and the company had \$223.1 million available under its ABL revolving credit facility as of April 30, 2021. Trade working capital<sup>3</sup> for the company as of April 30, 2021 was \$449.1 million, compared to \$433.5 million as of April 30, 2020. The increase was primarily due to increased accounts receivable which was consistent with increased sales versus the prior year quarter. Capital expenditures in the second quarter of fiscal year 2021 were \$5.7 million compared to \$4.5 million in the second quarter of fiscal year 2020.

<sup>2</sup> Net Debt is defined as total debt less cash and cash equivalents.

## Note Regarding Non-GAAP Measures

The company reports its financial results in accordance with U.S. generally accepted accounting principles ("GAAP"). However, management believes that the evaluation of our ongoing operating results may be enhanced by a presentation of Adjusted EBITDA and Adjusted Net Income, which are non-GAAP financial measures. Adjusted EBITDA represents net income before interest expense, income taxes, depreciation and amortization and loss on early extinguishment of debt, as adjusted for certain non-recurring, one-time and other adjustments which we believe are not indicative of our underlying operating performance. Adjusted Net Income represents net income as adjusted for certain after-tax, non-recurring, one-time and other adjustments, which we believe are not indicative of our underlying operating performance, as well as non-cash intangible asset amortization and stock-based compensation. Free Cash Flow is calculated as net cash from operating activities minus capital expenditures.

The company believes that the use of Adjusted EBITDA, Adjusted Net Income and Free Cash Flow provide additional meaningful methods of evaluating certain aspects of its operating performance from period to period on a basis that may not be otherwise apparent under GAAP when used in addition to, and not in lieu of, GAAP measures. A reconciliation of Adjusted EBITDA and Adjusted Net Income to the most closely comparable financial measures calculated in accordance with GAAP is included in the financial appendix of this news release.
